

Cash Pay Prices

Not everyone has a medical insurance plan, and not all plans cover the same services the same way. The following list provides a sample of some of the services that we provide.

Cash prices are only available to patients without health insurance and require full payment at the time services are rendered.

The insurance plans vary based on the plan, coverage and contract. We can provide an estimate if you would like once we have your insurance benefits. Please let us know and we will be happy to help.

Services

NOTE: price does not include additional recommended procedures
